Gallatin, TN

Professional Summary

Software Developer with over 3 years of experience specializing in C# middleware, Delphi application development, and REST/SOAP API integrations. Led 10+ client integrations, including the company's largest account worth $1.7 million in annual revenue. Experienced at feature and system integration design in a production environment.

Professional Experience

First Call Claim Solutions | Whitehouse, TN | *Vendor claims intake for insurance providers*

Software Developer | May 2026 – Present

Junior Software Developer | May 2023 – May 2026

- Led more than 10 client system integrations using REST APIs and SOAP protocols to map internal database fields to custom JSON and XML payloads.
- Engineered and modified C# middleware API layers to accommodate unique client payload structures and security requirements such as Basic Auth, OAuth 2.0, and HMAC.
- Designed and deployed new technical features and UI components in the core Delphi application using an Agile workflow consisting of two-week sprints.
- Created and updated SQL queries for efficient retrieval and modification of data from SQL Server and AS400 databases.
- Set up custom logs and email warnings to stay ahead of production failures.
- Diagnosed, debugged, and resolved critical software defects in the live production environment.

System Deployment Coordinator | October 2022 – May 2023

- Managed administrative system configurations and executed technical onboarding for 5+ new clients deployments.
- Served as a primary technical account manager, actively communicating with over 50 enterprise clients to resolve business inquiries and technical software issues.
- Conducted QA testing alongside the core development team to ensure deployment stability and feature accuracy.

Independent Study | May 2017 – October 2022

Technical Skills

- **Languages:** Delphi, C#, SQL
- **APIs & Data Transmission:** REST APIs, SOAP, JSON, XML, YAML
- **Tools & IDEs:** Visual Studio, VS Code, SVN, Git, Postman, Embarcadero, Claude Code

Education

Tennessee Tech University | Cookeville, TN
Coursework in Computer Science | Aug. 2016 – May 2017
